MALONE TOWN BOARD OF VARIANCE AND APPEALS
MINUTES
PUBLIC HEARING
May 13, 2024 @5:30PM

Present: Tom Arnold, Chairman, Bruce Burditt, John Leclerc, Michael McMahon, Chris Kelley, Criag Lavigne, Royal Forgues, Abby Monica

Public Hearing Notice:

*The Malone Town Board of Variance and Appeals will hold a meeting on Wednesday, February 16, 2022 at 6:00 PM at the Malone Town Offices, 27 Airport Road, Malone to consider an application for variance for Larry Lamica and Royal Forgues 5275 State Route 30. He wishes to place a billboard on the property, and it is over 150 square feet according to Town of Malone Code Book 79-18.
Anyone wishing to be heard on said matter should plan to attend.*

Minutes:

Tom Arnold opened up the meeting at 5:30 p.m. stating the purpose of the meeting is to hear a variance request from Royal Forgues to place 2 signs back-to-back on Larry Lamica property. Code Officer Mike McMahon stated that the proposed Signs are larger than the current height and width standards.

Mr. Arnold stated the signs will have to be 75 feet back from the center of the roads so traffic can still be visible.

Mr. Forgues stated he has contacted New York State about the signage, and they have given permission. The signage will be lit up with two lights on the corners of the sign and national grid hooks up the electricity for him.

Chairman Arnold called for a vote, it was as follows: (5-0) John Leclerc – Aye, Bruce Burditt – Aye, Tom Arnold – Aye, Craig Lavigne- Aye, Chris Kelley- Aye.

This variance was approved that allows Mr. Forgues to place the signs on the property.

The meeting was adjourned at 5:37p.m.

Respectfully submitted,

Abby Monica, Secretary

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

An evaluation of the magnitude and importance of project impacts was completed and details are available under separate cover in a Part 3 Supporting Information document.

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the
Village of Malone Village Board as lead agency that:

- A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.
- B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.
